PRODUCT FEATURES

1 IMPROVED, INTUITIVE INTERFACE
The layout design is inherited from the top models in the DDJ-S series. The jog wheels, Performance Pads and all the knobs and fader positions in the mixer section enable intuitive, professional performances.

2 FX FADE
Reduce the volume and apply one of eight FX patterns to a track at the same time. Easily and smoothly transition to your next track, even if you're playing with different genres of music.

3 PAD SCRATCH
Easily reproduce eight different scratches techniques developed by hip hop icon DJ Jazzy Jeff by simply pressing the Performance Pads.

4 DEDICATED PLAY AND CUE BUTTONS, PLUS INDEPENDENT AUTO LOOP BUTTON
Beginner DJs can improve their skills on the controller's professional layout, which features dedicated play and cue buttons, plus an independent Auto Loop button.

5 CLEAR VISUAL DESIGN
The DDJ-SB3 feels natural to use thanks to the clear visual division of the player and mixer sections, which feature a hairline and glossy finish respectively. The aluminium jog wheels create a quality look and feel.

6 PORTABLE BODY
Take the DDJ-SB3 to parties, friends' houses and other venues. The controller is lightweight and features grab handles on both sides for easy carrying.

7 BUILT-IN SOUND CARD
Plug and play by simply connecting the controller to your laptop using a single USB cable. There's no need to install a driver.

8 MIC INPUT CIRCUIT
Hear clear audio without distortion, even with high input level.

We've made every effort to show the product accurately, but colours and typography might be different in reality. Features and specifications are correct at the time of printing but are subject to change. Please speak to your Pioneer DJ dealer to make sure the product meets your needs.
