HDJ-X10

FLAGSHIP OVER-EAR DJ HEADPHONES

UNIQUE FEATURES

HIGH-DEFINITION AUDIO

A new 50-mm HD driver reproduces high-resolution sound from 5 Hz to 40 kHz. The direct drive structure, with a newly developed diaphragm shape and voice coil, delivers crystal-clear sound without loss of quality even at loud volumes.

NANO COATED POLYURETHANE LEATHER

The leather ear pads and headband cushion on the HDJ-X10 headphones are resistant to deterioration thanks to their water repellent nano coating, which enables you to easily wipe off sweat and dirt.

DETACHABLE MINI-XLR CONNECTOR

The HDJ-X10 headphones feature a highly reliable, detachable mini-XLR connector for outstanding sound quality.

AUTO-RETURN MECHANISM

The housing on the HDJ-X10 model incorporates an auto-return mechanism so the rotated housing automatically resets to its neutral position when you release it.

TOUGH CARRY CASE

When you're travelling to gigs, you can be confident your HDJ-X10 headphones will be well protected in the included flat carry case. Made from strong materials, the case has inner pockets for storing accessories such as USB devices and SD cards, and its handle makes carrying easy.

HDJ-X RANGE

BRAND-NEW HEADPHONE EXPERIENCES TO SUIT EVERY DJ

FEATURES ACROSS THE RANGE

HIGH-QUALITY AUDIO

Hear your tracks loud and clear. The HDJ-X headphones feature newly developed drivers while the 4-core twisted-structure cable and bass reflex chamber also help create outstanding sound quality.

HIGHLY DURABLE CONSTRUCTION

Take the HDJ-X headphones on the road and feel confident they'll handle heavy use. Each model has cleared the US Military Standard MIL-STD-810G Shock test, plus our own demanding stress testing.

SUITABLE FOR ANY MONITORING STYLE

No matter how you wear them, the HDJ-X headphones are comfortable to use. The housing design reduces pressure on your head and is textured on the outside for enhanced grip.

FLEXIBLE HEADBAND

To help you find the perfect fit, the HDJ-X headphones feature a flexible, durable headband. Passing our stringent test to open and close 20,000 times, it's built to withstand intense use.

EXCELLENT PORTABILITY

The HDJ-X7 and HDJ-X5 both come with a compact carry pouch, which snugly fits around the folded headphones to save space in your luggage and reduce the risk of damage on the road. The HDJ-X10 model comes with a flat carry case (see previous page).

VARIOUS ACCESSORIES INCLUDED

The HDJ-X10 and HDJ-X7 headphones include a 1.2 m coiled cable and a 1.6 m straight cable. The HDJ-X5 model comes with a 1.2 m short coiled cable. An L-type mini-jack prevents the connection from being knocked or accidentally disconnected.

2-YEAR WARRANTY

To guarantee long-term, reliable performance, all HDJ-X model headphones include a 2-year warranty.
